Price List of Young

Ornamental Trees, Shrubs and Vines

For Planting in Nursery Rows

THOMAS B. MEEHAN CO.
Dresher, Penna.

This list of small stock for lining out in nursery rows will be found very complete, but as quantities are limited we urge customers to place orders early so that the stock may be reserved for them.

Our stock is first class, well rooted and will be found to be stronger, heavier and better rooted than is usually the case with this material.

PLEASE READ TERMS

No less than 10 plants sold of any one variety.

25 of any variety at the rate quoted per 100.

250 of any variety at the rate quoted per 1000.

Packing charged extra.

When cash accompanies order, add 10 per cent. to cover packing charges.

HYDRANGEA PAN. GRAND.

It is a common practice among nurserymen to order these from France.

WHY?

Nurserymen who have planted our one year layers find:

They cost less than French stock after paying freight and duty.

They are stronger and better.

They give a stand from 90 to 95 per cent. French stock from 50 to 75 per cent.

They will produce a bigger and stronger plant in the same space of time.

Are these not good reasons why you should plant our Pennsylvania Grown Hydrangea p. g.? Sample will be sent if requested.
